Town, State, zip code

Dear Business Owner,

As owner of X *Business*, you are invited to dine and discuss Frenchman Bay, its values, and priorities for the future.

Where: Galyn's Restaurant on Main Street in Bar Harbor  
When: Thursday November 13th, 2014 6-8:30 pm

MDI Biological Laboratory is working with the Frenchman Bay Partners to host this event for the Bar Harbor business community. We are creating a computer-based decision support tool that will help people look at alternative scenarios when planning for the future of the Frenchman Bay area. We define the Frenchman Bay area as the entire Frenchman Bay Watershed (see enclosed map). In the spring, we will be repeating this effort on the other side of the bay.

At the meeting, we will introduce the work of the Frenchman Bay Partners and get input from you for creating the decision support tool. We will be asking you about those aspects of the bay and surrounding area that have the most value for you and your business.

The mission of the Frenchman Bay Partners is to ensure that the Frenchman Bay area is ecologically, economically and socially healthy and resilient in the face of future challenges. Our shared vision is a healthy and sustainable future for Frenchman Bay where multiple users can enjoy the inherent beauty and benefit from the ecological and economic viability of the bay. You can find out more about the Frenchman Bay Partners at [www.frenchmanbaypartners.org](http://www.frenchmanbaypartners.org).

Please send me an e-mail if you are planning to attend! Feel free to call me if you have questions!

Thanks!

Jane Disney
